

1 October 2012

Segerhammar MaskinService

has taken over both sales and assistance of OMAS Food machinery in Sweden, after Storkökscentrum, Jan Sjögren who have had the opportunity to retire after about 20 years of collaboration with OMAS Food machinery.

OMAS Food machinery has over 60 years of manufacturing and offers one of the widest ranges of slicers, together with various other food machinery, as mincers, tenderizers + strip-cutters, vegetable cutters, small band saws and much more.

OMAS Food machinery is also known as the original makers of some customized models for other machine brands, which they have made over the years and that we could assist too.

Segerhammar MaskinService is a family business with 30 years of experience and work in the food industry and butcher shops. They have offices, workshop, stock and showroom in Stockholm (Slaughterhousearea / Slakthusområdet).

With the addition of OMAS product range Segerhammar MaskinService can now offer one of the broadest and approved CE ranges of manual, semi-and full automatic slicing machines for the Swedish market.

Read more about the range on our website www.segerhammar.se
